

**NOTICE FOR GENERATOR/
SMALL ENGINE CONVERSION KITS:**

Our kits are equipped by default to run under a standard low pressure gas rating of 6-8 oz (equivalent to 11-14" wc).

**Additional pressures that are available are 4oz
(equivalent to 7-9" wc - uncommon)
or 2 lb systems (rare).**

Please note in the comment section when placing your order what your pressure is (unless you selected in the drop-down).

Thank you!
