Features:

- Stainless steel rails
- Rails securely bolted to the enclosure
- Stamped in gripping edges in rails to grip pole
- Heavy-Duty U-Bolts to secure enclosure to the pole
- This mount allows you to use stainless strap band clamps to mount the enclosure to large diameter pipes and poles (Using straps may require using a safety cable to restrain the enclosure in the event that the straps fail)

Applications:

- WLAN
- Industrial Ethernet
- SCADA
- Remote site installations
