

NETGEAR Support

What is the latest firmware version of my NETGEAR cable modem or modem router?

Was this article helpful?  Yes  No | 122 people found this helpful in last 30 days

You cannot manually update your NETGEAR cable modem or modem router's firmware.

NETGEAR provides your ISP with the latest firmware and your ISP updates your firmware.

If your firmware is out of date, contact your Internet Service Provider (ISP) for assistance.

The following table displays the latest firmware versions of NETGEAR cable modems and modem routers.

Note: If your ISP is not listed in the following tables, advise your ISP to contact our sales engineering team using the following contact form: <http://www.netgear.com/service-providers/contact-us/CableMSO.aspx>.

Cable Modems:

Modem	Comcast (Deployed Firmware)	Spectrum (Approved Firmware)	Cox (Approved Firmware)	All other ISPs (Production Firmware)
CM400	V2.01.04	V1.01.21	V2.01.02	V2.01.04

This article applies to:

- Cable Modem (12)
- Orbi (4)
- Cable Gateway AC (10)
- Cable Gateway AX (1)
- Cable Gateway N (5)
