

GC018 – 12 Volt Plug with Eyelet Terminals

The 12V Plug with Eyelet Terminals permanently connects directly to your battery with integrated eyelet terminals (3/8-inch). Easily power your favorite 12-volt devices directly from your battery, like a tire inflator, vacuum, coffee maker, fan, cooler and more. It features fused connections for increased safety, and a water-resistant cap to protect the 12-volt female socket from the elements. Made from a high-conductivity 16AWG 100-percent copper wire and a rated capacity of 15-amperes.

- Power your favorite 12-volt devices, like a tire inflator, vacuum, coffee maker and more.
- Lie-flat design for seamless installations with M10 (3/8-inch) hole size.
- Water resistant cap to protect the female socket from the elements.
- Built-in fused connection for protection against short circuit.
- High-conductivity 16 AWG copper wire and rated capacity of 15-amperes.
- Molded strain reliefs prevent unwanted strain on the wire connections.

Technical Specifications.

Input

M10 (3/8-Inch) Eyelet Terminals

Output

12 Volt Plug Female Adapter

Fuse

15 Amp Regular Blade ATC

Wire Size

16 AWG

Length

24 Inches
